

WITTENSTEIN alpha GmbH: Redesigned Info & CAD Finder now available

January 2011

WITTENSTEIN alpha GmbH has completely redesigned its search engine for product information and CAD data. In future, the new version (http://www.wittenstein-alpha.de/info_cad_finder.htm) will give customers free online access to the following new features:

- Online geometry check with the motor
- Transparent selection process
- Generation of the full ordering code
- Documentation of your selection
- 3D animation of the chosen solution

High-tech products made by **WITTENSTEIN** fly into space and win Formula One races. Intelligent drive systems – from the world's smallest high-performance servo drive to the latest state of the art in medical technology – are developed, produced and marketed by a team of around 1.400 employees. With a blend of dedication and enthusiasm, we set benchmarks – every day – worldwide.

The WITTENSTEIN Alpha Info & CAD Finder was developed to provide customers with a convenient way to download drawings and 3D models quickly and directly. In addition to extending the range of services, we have also completely redesigned the user interface: thanks to the intuitive navigation, it is now much easier to configure the optimal WITTENSTEIN alpha drive system for a particular application and obtain all relevant data.

Updated: The WITTENSTEIN Alpha Info and CAD Finder

The redesigned Info & CAD Finder continues the tradition of efficient tools to support WITTENSTEIN alpha customers.

Info & CAD Finder

- Improved service for customers: the new WITTENSTEIN alpha Info & CAD Finder.

WITTENSTEIN alpha GmbH

WITTENSTEIN alpha GmbH (www.wittenstein-alpha.de) develops and manufactures drive components and integrated systems, including low-backlash planetary gearheads – of which over a million are currently in action around the globe – servo right-angle gearheads, complete drive units and mechanical solutions for rack-and-pinion systems and coupling connections. In addition to comprehensive engineering, WITTENSTEIN alpha also serves developers and designers in the machine building and drive technology sectors with its cymex® software solution – a powerful tool for sizing complete drive trains.

WITTENSTEIN alpha GmbH is one of eight Business Units of WITTENSTEIN AG. High-precision planetary gearheads, complete electromechanical drive systems and AC servo systems are among the successful products manufactured by this Igersheim-based high-tech company.

Texts and photographs in printable quality can be downloaded from www.presse.wittenstein.de or www.press.wittenstein.de.
